INSTRUCTIONS

The SideKick enables you to transport a child comfortably when they are feeling tired and need a break. It has been specifically designed for the Kiddie Kroozer wagon, and can be attached at either side.

- The SideKick is designed for children aged 15 months and older, with a maximum body weight of 22 kg.
- The SideKick is specifically developed for the Kiddie Kroozer.

Please consult your specialist dealer before making a purchase.

PARTS

1x Board

1x Seat

1x Handle bar

2x Adapters

1x Seat Post & Nut

2x Tools

Pictures for illustration purposes only. Actual product appearance may vary.

ASSEMBLY INSTRUCTIONS

1. Insert the threaded end of the seat post fully through the centre hole in the board and secure beneath the board with the nut provided. Tighten the nut securely.

2. Insert the seat tube into the seat post (A) and align the securing holes in each of the tubes. Insert the M6 screw through the holes in both supports (B) and secure it with the corresponding washer and nut.
3. Insert the handlebar over the seat tube so that the holes line up (C). Insert the corresponding screw and secure it with the matching washer and nut (D).

CONNECT TO THE ADAPTORS TO THE KIDDIE KROOZER

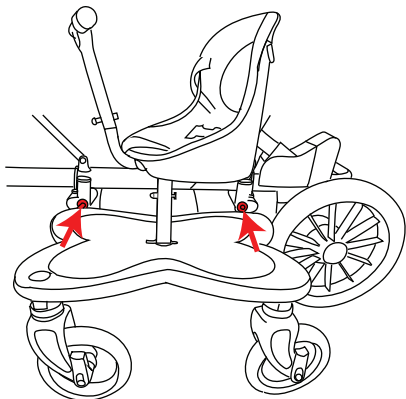

4. Choose the side of the Kiddie Kroozer at which you wish to install your SideKick.
 - 4a. Place the U-shaped metal with plastic cover (a) over the Kiddie Kroozer side tube.
 - 4b. Place the plastic contoured spacer underneath the tube (b), then pass the two ends of the U-shaped clamp through the contoured spacer holes and continue through the corresponding holes in the adapter (c).
 - 4c. Before tightening, insert the second flat spacer (d) beneath the adapter (c).
 - 4d. Secure the entire clamp assembly by firmly threading and tightening the two wing nuts (e) onto the ends of the U-shaped metal (a) beneath the flat spacer (d).

Refer to the illustration (1) below to confirm the correct placement order. Ensure the adapters are oriented correctly as illustrated in pic (2). The openings for inserting the Sidekick (f) should be facing sideward.

CONNECT TO THE KIDDIE KROOZER

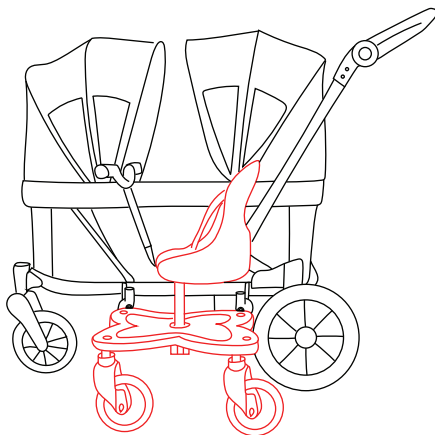

5. Insert the pins on the board into the adapters until you hear a 'click' from both adapters.

IMPORTANT WARNING: THE ADAPTORS MUST BE SECURED VERY TIGHTLY TO THE FRAME OF THE WAGON, THEY MUST NOT BE ABLE TO MOVE OR ROTATE! THE RIDER CAN TIP OVER IF IT IS ATTACHED TOO LOOSELY!

IMPORTANT WARNING: THE SIDEKICK BOARD MUST BE ASSEMBLED SO THAT THE BOARD IS AS PARALLEL TO THE GROUND AS POSSIBLE. FAILURE TO DO SO MAY RESULT IN SERIOUS INJURY.

DISCONNECT FROM THE KIDDIE KROOZER

6. To release the SideKick from the Kiddie Kroozer, simultaneously lift both release levers located at the top of the adapters (f), and pull the board slowly away from the wagon. This will disengage the board. After removing the board, the adapters do not need to be removed and can remain attached to the Kiddie Kroozer for future use.

▲WARNING▲
